Mobile Development: Android, iOS, Cross-platform

AI/ML Integration: AI-powered features, Posture Detection, Computer Vision

Version Control: GitHub, GitLab, Bitbucket

Testing: Jest, Detox, SonarQube

DevOps: CI/CD, Crashlytics

Other: Payment Gateway Integration, Maps (Mapbox)

EXPERIENCE

Software Developer | techugo, Noida, India · Remote | Nov 2025 – Present

- Working on AI-powered mobile applications using React Native.
- Building scalable features, integrating APIs, and implementing real-time functionalities.
- Delivering high-performance production-ready apps with focus on seamless user experience.
- Utilizing Cursor AI and modern tooling for improved development efficiency.

Software Engineer | Space-O Technologies, Ahmedabad, India | Apr 2025 – Aug 2025

- Developed an e-commerce mobile app for Athena Flowers, a Saudi-based florist.
- Enhanced an existing project originally built using low-code/no-code platforms (Bolt AI).
- Implemented features including flower arrangements, gift items, same-day delivery, and gift wrapping services.
- Utilized Cursor AI and Claude Code to improve performance and user experience.
- Integrated online ordering and offline store operations.

Associate Software Developer | Elsner Technologies Pvt. Ltd., Ahmedabad, India | Jul 2024 – Jan 2025

- Worked on existing projects at Builder.ai, focusing on seamless user experiences and improved app performance.
- Explored and implemented innovative solutions for React Native applications.

Software Engineer | Peerbits, Ahmedabad, India | Feb 2023 – May 2024

- Solo-developed the Yelowsoft POS project from start to finish, demonstrating strong initiative and problem-solving skills.
- Implemented complete stock management, order processing, and cart functionality from scratch.
- Applied debugging and troubleshooting expertise to improve product stability.

Software Engineer | Ecosmob Technologies, Ahmedabad, India | Jan 2022 – Jan 2023

- Developed cross-platform applications using React Native framework for Android and iOS.
- Designed and implemented screen layouts delivering seamless user experience.
- Integrated APIs using RESTful architectures ensuring efficient data management.
- Enhanced React Native applications by adding features that improved usability and user engagement.

PROJECTS

Domino Teacher & Parent App | Jul 2026 – Present

Redefining how parents and teachers collaborate. Built the Domino Teacher App and Domino Parent App to work hand-in-hand, covering student screenings, child reports, real-time chat, and activity tracking so teachers can share insights and parents can stay involved.

Mock Warrior | *May 2026 – Jun 2026*

Mock test applications for various competitive exam platforms.

AI Dating | *Feb 2026 – May 2026*

[View Website](#)

AI-powered smart matchmaking mobile application. Enables users to connect through AI-driven profile matching, real-time chat, and intelligent conversation assistance.

Her Secret Desires | *Jan 2026 – Mar 2026*

[View Website](#)

Modern dating mobile application. Designed to enable seamless matching, real-time communication, and premium social interaction features.

SensitiveGPT | *Nov 2025 – Dec 2025*

Mental wellness mobile application. Helps users track emotions, analyze energy patterns, and receive AI-driven supportive guidance.

Athena Flowers | *May 2025 – Aug 2025*

[View on Play Store](#)

Saudi-based florist e-commerce app featuring natural, dried, and artificial flower arrangements. Implemented same-day delivery, gift wrapping services, and integrated online/offline store operations.

Xtraplayer | *Dec 2024 – Jan 2025*

[View on Instagram](#)

Live cricket scoring application with real-time score tracking and WebSocket integration for live updates. Implemented comprehensive extras management (wides, no-balls, byes, leg-byes) with intuitive UI/UX.

Myne | *Oct 2024 – Nov 2024*

[View Website](#)

Financial super-app integrating bank accounts, crypto wallets, and stock exchanges. Developed real-time net worth tracking, portfolio management, and estate planning features.

Secure2Go | *Aug 2024 – Nov 2024*

[View on Play Store](#)

Safety application for workers in hazardous environments. Implemented personal alarm system with automatic man-down detection.

Novo – Cabs, Autos & Bikes | *Feb 2023 – May 2024*

[View on Play Store](#)

Kashmir's new, affordable and the fastest way to get around any city in J&K.

An2 Cabs - Ride in style | *Feb 2023 – May 2024*

[View on Play Store](#)

We offer high-quality service and rides for a very low price. Book Now!
